Wilkinson addressed the Council as County Commissioner asking that the County be allowed to put down a 12 foot walk, making it on property line, thus extend the sidewalk two feet. This statement taken as a petition was referred to Committee on Side walks.

Engineers report read. Surveyors Lovick and Leslie made Statements in regard to Sewer.

Rept of Com of the Mayor & Sch Board re Central School Building

Report of the Committee appointed by the Mayor to act with Board of Education on the question "What is best to do with Central School Building" read as follows.

To the Mayor and Councilmen
of the City of Ottawa.

Gentlemen: —

"Your Committee appointed to
"confer with the School
"Board in reference to what
"was best to be done with the
"Central School Building, beg
"leave to report, that we
"made a careful examination
"of the building, and reported
"our conclusions to the School
"Board. The undersigned, how-
"ever, having been created
"a Committee by your author-
"ity, deem it proper to
"make report of our doings to
"that body from whom we re-
"ceived our appointment.
"On receiving notice of our ap-
"pointment, We repaired as
"a body to the Central School
"Building, and made a

Examination of its outside and
inside walls, partitions, &c
and came to the unanimous
conclusion that the four outside
walls should be rebuilt (except
the S. E. corner which was re-
cently rebuilt).
We have since had a competent
builder, Mr. Levi Shaner, make an
estimate of the probable cost of
this work, which he places
at not to exceed $7000.
So far as safety is concerned, your
Committee does not deem it
even necessary that the North
or entire West Wall should be
immediately rebuilt, but inas-
much as the building would
not look very well half old and
half new, concluded that it
would be for the best to replace
all the outside walls, save &
except the Chimney, which
seems to be in good condition,
and the South East Corner, which
has already been rebuilt.
Your Committee has noticed in the
daily papers that the school
Board have had estimates
made of the cost of tearing
down the entire building and
erecting a new one in its
place, also for the building
of additional rooms to the
Lincoln and Hawthorne build-
ings and for changing the
present system of heating,
and have asked the Mayor
to call an election for
the purpose of voting
$25.000 in bonds to do the
work [illegible]
Your Committee is at a loss
to see why the falling of
a couple of capstones from
over a window in the Central

"School Buildings, should be made a precept for asking our City for $28,000 in bonds to build an entirely new building, add four more rooms to the buildings already erected, Change the heating system and make other Changes here to fore as thought of. However desirable these improvements may be, your Committee deem it unwise to tear down a building which cost the City $30000 to build, when $7000 will fully repair it, and place it in better Condition than when it was first erected because it would rest upon a much deeper and firmer foundation."

All of which is respectfully submitted

Horace J. Smith
E. M. Sheldon
Milo R. Harris.
E. T. Thomas.
C. H. Elstabrook.

Councilman Atkinson said he was much pleased with that report. It showed thought and research. He moved that the Board of Education be asked to withdraw their request asking the Mayor to call a Special Election and accept the report of this Committee. The motion was seconded by Councilman Church and Carried unanimously.

Governor Elder then addressed the Council Committee Said he thought that a very conclusive report. He thought that since this Committee had been appointed to act with the School Board, that Board should Co-operate with this Committee, as safety lay in that direction.
